

Health/basic needs

We work to ensure children have access to nutritious meals all year long, and we help families create healthy habits that last a lifetime. Our 2-1-1 helpline connects people to a safety net of services that address people’s basic needs. We also strategically invest in partners that provide support to families in need.

Education

We expand access to quality child care, improve childhood literacy rates and prepare high school students for college and a career. Through this work, we’re helping children learn and grow, and providing parents with the resources they need to support their children’s educational success.

Economic prosperity

Through our partners, we connect people to financial supports like job training, coaching and free tax preparation. These programs help individuals learn new skills, increase their earnings, and keep and grow more of what they earn.

Designations

In addition to supporting our work to help households become stable and ensure children can thrive, donors have the option to contribute to our more than 100 designations-eligible nonprofit partners.

Community Investment	2018-19	2017-18
