

First Name,

Through Sept. 14, I am participating in the 2025 Run United Virtual Marathon, raising funds for classrooms in Southeastern Michigan while running and walking 26.2 miles. I hope to have your support!

In Southeastern Michigan, more than 40% of households do not have the resources to cover life's basic needs like food, housing and health care. This often means that students do not have the resources and supplies needed to thrive in and out of the classroom.

Science, technology, engineering, arts and math (STEAM) jobs are the pathways of the future. However, many students don't have regular access to quality STEAM learning opportunities – and as we know, many teachers dig into their own pockets to buy classroom supplies. The Run United Virtual Marathon is raising money to change that by supporting **STEAM Materials Classroom Grants**. These funds help STEAM teachers at underserved schools purchase much-needed materials for their classrooms.

Please consider making a donation to my Run United fundraiser: [PERSONAL FUNDRAISING LINK](#)

Any amount makes a difference!
